

September CLASS NEWS

Kindergarten

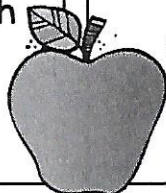

Language Arts

This month, we will go over the alphabet and introduce our vowels. We will introduce Thinking Maps and create circle maps with the letters. Ask your child to name words that begin with each letter.

Our sight word this month is "I." We will use this word when writing in our journals. Ask your child to create sentences with this word.

Math

In September, we focus on numbers to ten. We practice writing them and representing them using math tools. The students will begin to share strategies for problem solving. Start counting by 1's and 10's with your child at home.

Science & Social Studies

Our first unit in Science is *WEATHER*. Ask your child to name the seasons and describe the weather related to each.

In Social Studies, we will be starting our unit about school rules, getting along, and being a good citizen.

Seacliff News

Please join us for Back to School Night on 9/19. We will be sharing important information about our school and classroom.

**Every Thursday is planning day- 1:06 dismissal. Please do not enter the kindergarten yard until 1:06.
