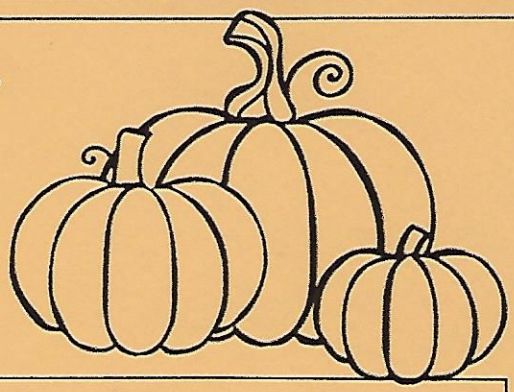
November Class News



Kindergarten

Language Arts

This month, we will be learning about the letters *Ss*, *Aa*, and *Tt*. We will create circle maps, brainstorming words that start with these letters. Ask your child to name words that begin with these letters.

Our sight words this month are "*see*" and "*we*". We will use these words when writing in our journals. Ask your child to create sentences with these words.

Math

In November, we will continue to focus on numbers to ten. We will practice writing them and representing them. We will also share our strategies for solving CGI story problems. Ask your child if he/she can name a strategy (e.g., counting all or counting on). We will also study two-dimensional shapes. Have your child identify shapes in everyday life.

Science & Social Studies

Science: We will finish our unit about weather this month. We've looked at identifying types of weather, studied the wind, categorized features of all four seasons, and learned about clouds.

Social Studies: We will talk about people in history and how things have changed over time.
